

The Durham Chapter of

Is pleased to present another unique learning opportunity:

Thursday, May 27TH, 2010: Professional Development Meeting

Inventory Optimization

with

Dennis Lord, CPIM

INVENTORY OPTIMIZATION is one of the hottest supply chain improvement areas.

WHY?! Increasing complexity of manufacturing and distribution due to greater variability and uncertainty across the supply chain requires a new approach for managing inventory.

Inventory optimization is such an approach. **IO** establishes the optimal mix between inventory investment and service levels (fill rates) for each SKU/customer/location within your supply chain.

This presentation will provide an introduction to inventory optimization, how it works, and the benefits to your organization.

SPEAKER PROFILE:

Dennis Lord, CPIM, is the founder and Executive Director of Inventory Management solutions (IMS). The IMS goal is to provide the knowledge, skills, and strategies for clients to improve productivity to achieve profitable growth and competitive advantage.

Dennis has more than 30 years of training, consulting, and practical experience in inventory and operations management in a variety of industries.

Location:

We will meet at the main Whitby Public Library - Room 2 – 405 Dundas Street West, Whitby. The library is located on South side of Dundas (Hwy 2) between Henry and King Streets. Parking is in the lot (free at night) just East of the library building. Included in the fees are sandwiches, dessert, and soft drinks. Please let us know if you have a special meal requirement.

Space is limited! Please register before noon on Friday, May 21, 2010 by calling 905-683-7710 or preferably visit our chapter web site at www.apics-durham.org and click on the month of May under "Events and Registration."
